

Brainstorming & Idea Prioritization Template

Date	6 July 2026
Team ID	SWTID-2026-5556
Project Name	Credit Card Approval Prediction
Maximum Marks	3

Step1: Brainstorming and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S. No	Team Member	Idea/Suggestion	Category	Group No.
1	Vinjimalla Grace Leona	Simple hardcoded threshold based only on Credit Score	Static Rule Based System	Group 1
2	Rakesh Koppusetti	Manual scoring sheet application where a clerk inputs data manually	Traditional Workflow	Group 1
3	Tarini Jayasri	Machine learning model prediction approval using income, credit history, and debt ratios	Core Predictive ML	Group 2
4	Tarini Jayasri	Benchmarking multiple ML algorithms (Log Reg, Decision Tree, Random Forest) via a Flask web form	Advanced Data Science	Group 2
5	Amrutha Siva Naga Pragna Korada	Deep Learning neural network to map transaction histories for credit risk profiling	Deep Learning	Group 3
6	Jagu Hansika	Computer vision for scanning and verifying physical applicant IDs/documents	Image Processing	Group 3

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Moderate/ Low)	Importance (High/Moderate/ Low)	Priority	Selected (Yes/No)
1	Static Thresholds & Manual Scorecards	High	Low	Low	No
2	Multi-Algorithm ML Engine & Flask Development (Tarini Jayasri's Proposal)	High	High	Top	Yes
3	Deep Learning Risk Assessment & CV	Low	Medium	Medium	No
