

No. of Functional Features Included in the Solution

Date	8 July 2026
Team ID	SWETID-2026-5556
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration & Login	Enables secure user onboarding and authentication using standard web protocols.	Auth Service	Done	1.0
2	Applicant Data Ingestion Form	Interactive UI form to collect applicant income, age, employment, and financial data safely.	Presentation Layer	Done	1.0
3	Data Scaling & Pre-processing	Automated data cleaning, transformation, and array reshaping pipeline before prediction.	Core Logic Service	Done	1.0
4	Predictive Assessment Engine	Evaluates input fields using the trained Machine Learning classification model to calculate risk.	Core Logic Service	Done	1.0
5	Instant Verdict Dashboard	Displays dynamic visual cards indicating real-time approval or	Presentation Layer	Done	0.5

		rejection decisions instantly.			
6	History Analytics Log	Relational data mapping that safely stores past submissions and generated risk outputs.	Data / Storage Layer	Done	0.5
7	Third-Party Credit Check Simulator	Simulates external API requests to pull mock credit reports for added verification depth.	External API Integrations	Done	0.0 (Bonus)
8	Automated Status Notifications	Connects to messaging APIs to forward credit status responses straight to user configurations.	External API Integrations	In Progress	0.0 (Bonus)

Feature Summary:

Metric	Count/Value
Total Features Planned	8
Total Features Implemented	7
Core/Must-Have Features	6
Additional/Nice-to-Have Features	2
Features Tested & Verified	6

Feature Category Breakdown:

S No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Applicant Data Ingestion Form, Instant Verdict Dashboard
2	Backend / Logic	2	Data Scaling & Pre-processing, Predictive Assessment Engine
3	Database / Storage	1	History Analytics Log (Relational Database)
4	API / Integration	2	Third-Party Credit Check Simulator, Automated Status Notifications
5	Security / Authentication	1	User Registration & Secure Login System
